

SIRIRAJ CLINICAL PAIN MANAGEMENT TRAINING CENTER

FACULTY OF MEDICINE, SIRIRAJ HOSPITAL, MAHIDOL UNIVERSITY

BANGKOK, THAILAND

BACKGROUND

Pain is a major healthcare problem worldwide that gives a burden and a significant impact to quality of life of the patient and family. The reports of the IASP Taskforce for Developing Countries convince that there is a need in every level for professional education program to form and improve clinical facilities with government support for pain relief programs and better access to affordable drugs.

Siriraj Pain Clinic is an academic anesthesiological-based pain services, established since 1990. With long standing experiences in treatment and educational services, we establish a clinical training program for pain management. Our philosophy is the critical mass of patients would benefit from the pain treatment facilities that established by the trained medical professionals.

I. ONE YEAR PHYSICIAN FELLOWSHIP PROGRAM

OBJECTIVES: To develop physicians that competent in basic **knowledge and skill** in pain management (as per program).

Fellows will spend their time at Pain Clinic, Musculoskeletal Pain Clinic, Department of Psychiatry and Acute Pain Services according to their activities as directed by the program course. There will be opportunities to study and **involve** in several aspects of pain management including pain evaluation, problem-based bio-psycho-social care, end of life care, and pharmacological management of pain, **hands-on** treatment of regional blockades, acupuncture, non-pharmacological and psychological methods and rehabilitation. Fellows will involve in the routine academic activities in the pain management clinic such as, pain forum, interesting case, grand round and journal clubs and direct patient care face to face under supervision of mentors according to specialization, including anesthetist, physical and rehabilitation physician, psychiatrist who specialized in pain management.

Fellow will complete at least two or three original case study and/or one review article for publication. One month elective rotation that corporate with program is provided.
