Siriraj Scholarship for Doctors from ASEAN and Developing Countries

Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand

Fiscal years 2017-2019 (3 years)

According to Faculty of Medicine Siriraj Hospital has implemented Siriraj Scholarship for ASEAN Doctors (2013-2015) to CLMV countries including Cambodia, Laos PDR, Myanmar and Vietnam in order to create a collaborative network and promote an exchange of doctors within ASEAN countries for further , training and gaining experiences in terms of research, medical services, and health system of Thailand. The faculty received significant cooperation from all departments as well as inquiries from a number of ASEAN doctors who have expressed their interests in the project, continuously.

In adherence to the Faculty strategy in promoting visibility and international recognition, preparation for changes in ASEAN Economic Community (AEC) as well as developing the cooperation with other developing countries in the needs of medical assistance, for instance, Sri Lanka, Bhutan and Nepal, therefore, International Relations Division has proposed Siriraj Scholarship for Doctors from ASEAN and Developing Countries Project 2017 - 2019 (3 years) in order to expand its application of original CLMV countries to cover other ASEAN countries as well as other developing countries in Asia. The objectives of the project are to enhance cooperative network and improve international recognition of the faculty which are in line with the stated strategy of “Promote International Visibility and Global Presence”.

Duration

Fiscal years 2017-2019 (3 years)

Objectives

1. To provide an opportunity and support those doctors in ASEAN and other developing countries further studies and training to gain more experiences in various areas of studies within the Faculty for a period of 1-3 months
2. To encourage and strengthen collaborative network at ASEAN and international levels
3. To make the Faculty more visible in education, research and medical services as a leading medical institute in ASEAN and the global arena

Expected Outcomes

1. Opportunities for doctors from ASEAN and developing countries in Asia to gain further studies and training at the Faculty of Medicine Siriraj Hospital for 1-3 months in order to support and strengthen collaborative networking at ASEAN and international levels
2. Promotion of an exchange of knowledge and experience in terms of education, research and medical services among doctors from ASEAN and developing countries and medical students and personnel of the Faculty
3. Faculty personnel to upgrade their English competency in communicating with foreigners
4. Increased CSR activities of departments and the Faculty by providing assistance to doctors from ASEAN and developing countries
5. The Faculty becomes visible in ASEAN and receives more international recognition.

Countries eligible for Training and Scholarship

1. CLMV countries, namely, Cambodia, Laos PDR, Myanmar and Vietnam.
2. Other ASEAN countries, namely, Indonesia and Philippines.
3. Developing countries, namely, Sri Lanka, Bhutan and Nepal.
