Faculty of Medicine Siriraj Hospital

Letter of Invitation

To whom it may concern

The Sirindhorn School of Prosthetics and Orthotics, Faculty of Medicine Siriraj Hospital, Mahidol University, is pleased to announce the international workshop titled "Cheneau Brace based on the German School Schroth Concept for AIS Patients." The workshop will be conducted in two formats:

- Online lectures (Virtual) on 3 days: July 12, 19, and 26, 2025, from 1:00 PM to 3:00 PM (Indochina Time (ICT))
- Onsite hands-on practical for 5 days: July 29 to August 2, 2025, from 9:00 AM to 5:00 PM at Sirindhorn School of Prosthetics and Orthotics, Bangkok, Thailand.

The objective of this workshop is to provide participants with comprehensive knowledge and understanding of treating adolescent idiopathic scoliosis (AIS) patients using the Cheneau Brace design. This is a new knowledge and an internationally recognized and widely used device. Participants will gain skills to effectively apply this knowledge in clinical practice, offering an alternative treatment option to maximize benefits for AIS patients in the countries.

The Sirindhorn School of Prosthetics and Orthotics recognizes that this workshop will be highly beneficial for prosthetists and orthotists. Therefore, we cordially invite personnel under your supervision to participate. We sincerely hope for your cooperation in disseminating this information and encouraging personnel under your supervision to participate in this valuable workshop.

We look forward to your participation and please contact us if you have any questions.

Yours sincerely,

Associate Professor Gulapar Srisawasdi
Director of Sirindhorn School of Prosthetics and Orthotics,
Faculty of Medicine Siriraj Hospital, Mahidol University
